Subject: Incomplete Notice of Intention to Conduct Exploration, Philip Gramlich, D. G. Claims, Project Number and Task Number Not Assigned, Grand County, Utah

Dear Mr. Gramlich:

On February 28, 2008, the Division of Oil, Gas and Mining received a proposal from you to drill (blow out) eleven holes. While the description and map you provided include much of the information needed by the Division, there are several critical elements that are missing, such as a clear statement of the name of the operator; the operator's officers and directors or managers (as applicable); a statement signed by an authorized representative of the operator that reclamation will be completed as required by the R647 rules; and the permit fee (\$150.00). Although use of form MR-EXP is not required, the Division highly recommends it. A copy of the form is enclosed, and it is also available on our web site at www.ogm.utah.gov. We are returning the information you provided.

With the submittal, you enclosed a reclamation contract, but this form has been replaced by a much simpler form. Once your Notice of Intention is deemed complete and the reclamation surety amount has been determined, the Division will send you a copy of the reclamation contract form for your signature.

If you have questions about the submittal process, form MR-EXP, or any other requirements, please call me at 801-538-5261. Thank you for your cooperation.

Sincerely,

Paul B. Baker
Reclamation Biologist
Minerals Regulatory Program
